Inspironix[®], Inc., a growing provider of software for the education sector, today announced that it has released its newest version of InspiroScan[™], an OMR (bubble form) testing and data collection system.

InspiroScan provides schools and corporations with a bubble form solution that

- Reduces cost by using low-cost, off-the-shelf scanners
- Reduces cost by providing bubble forms as soft documents that can be reproduced in unlimited quantities by users
- Saves time by providing a powerful and easy to use interface for scanning sheets, editing data, and producing reports

The latest version of InspiroScan includes new features based on customer feedback, including

- Automatic calibration to your specific scanner to ensure the best scan results.
- Ability to print your bubble forms directly from the InspiroScan interface – Adobe Acrobat Reader is no longer required.
- System Help feature provides users with invaluable information about system use and frequently asked questions.

InspiroScan[™] builds on Inspironix's focus on providing unique solutions that help teachers spend less time on paperwork and grading and more time with students.

For pricing and availability of InspiroScan software and scanners, contact Inspironix at (916) 488-3222, toll free (866) 684-3669, or e-mail info@inspiroscan.com.
